

MODULAR LIGHTWEIGHT FURNITURE

CORAL CHAIR

CORAL CHAIR

Designer Ton Haas took inspiration from the intricate beauty of coral reefs to create this lightweight chair. The ergonomically designed seat and backrest together with its lumbar support ensure comfort even when sitting for lengthy periods of time. The CORAL chair is a one piece injection moulded chair made from fiberglass reinforced Nylon. This makes it lightweight (3.9 kg), durable, flame-retardant and UV resistant.

CORAL is suited for indoor and outdoor use. The chair's smooth and open structure does not allow water or dirt to adhere to it, resulting in a clean and dry surface on which to sit.

The CORAL chair works in the following environments:

hotels, events, restaurants, pubs, bars, garden areas, terraces, coffee shops, lidos, swimming pools.

Design: Ton Haas

CORAL CHAIR

SIZE, WEIGHT AND MATERIAL

Suitable for indoor and outdoor use.

Stackable: up to 20 chairs

Size: W 480 mm x H 825 mm x D 520 mm (Seat H 460 mm)

Weight: ~ 4 kg

Material:

Polyamid (Nylon 6), reinforced with glass fibre
(100% recyclable)

anthracite

taupe

white

orange

all colours on demand

SUSTAINABILITY & DESIGN PHILOSOPHY

Sustainable furniture production

We are always working on minimizing our business operations' impact on the environment. MOVISI products adhere to strict ecological and socially responsible production methods. MOVISI furniture is 100% recyclable, entirely toxin-free and 100% made in Germany.

Green power: our offices and our warehouse are powered by 100% green electricity from Greenpeace. 100% free of CO2 emissions. Power/electricity is mostly generated from eco-friendly hydropower.

Minimal packaging: MOVISI furniture is very light in weight: this means that CO2 emissions are reduced during transport as less fuel is needed to move the goods. We avoid unnecessary packaging. Our goal is to keep waste towards zero. This is why we only use cardboard boxes for packaging our modular furniture. No additional packaging and padding material is being used.

Lightweight transport: our furniture is very light in weight: this means that CO2 emissions are reduced during transport as less fuel is needed to move the goods.

Light, flexible and customisable

We think that everyone should have more choices when it comes to the character of their home decor or office environment. Our aim is to offer you endless interior design possibilities. MOVISI does not dictate a style, but rather allows you to establish your own personal style with furniture that you can customise and change as it suits you. The results can be unexpected, individual and dynamic. You are in control. The furniture changes with a whim, and with minimum effort. The results can be as surprising and evocative as your own imagination - furniture that adapts to your needs. The interchangeable components make the furniture dynamic and responsive to changing needs. These characteristics combine to make MOVISI one of the world's most unique range of furnishings available anywhere today.
