THE SKY'S THE LIMIT

Flexibility, mobility and sustainability are the pillars of MOVISI. The German company was founded in 2009 and specialises in manufacturing modular and multifunctional furniture such as partition systems, modular shelving and seating furniture for offices, home offices, modern homes, fairs, events and other environments where flexible or temporary solutions are needed.

Assembly requires no tools or special expertise, and can be carried out by just one person in a matter of minutes. Being lightweight and easy to handle Movisi furniture cuts down on transport and construction costs.

Movisi works with some of today's hottest designers to create furniture that reflects your individuality.

The collection brims with products that permit the user to 'design' their own compositions.

The light bright practicality of Movisi furniture is bound to energise you, and those around you.

Made in Germany

QUALITY & SUSTAINABILITY FIRST

There is no substitute for quality. This is why we only use carefully selected materials that fit with our philosophy, which is to provide you with creative freedom and flexibility. Movisi wants to secure good quality as well as take on social responsibility. This is why our products are manufactured in Germany and adhere to strict ecological and socially-responsible production methods.

But quality means even more at Movisi. From research to final product, we monitor every step of our design, manufacturing and marketing processes to provide the finest quality product and most rewarding customer experience for you.

ONLY THE BEST

Design: Nils Bennett in collaboration with Trickform

SKYROOM MOSKITO

A baldachin transforms into an elegant mosquito proof room: the „SKYROOM Moskito“ is a flexible room-in-room system. It transforms any space into a comfortable insect free summer lounge with a blissful privacy. The perfect solution for undisturbed sleeping, eating, working or relaxing.

When not in use, the folded cloth creates a canopy turns the sleeping area into a pleasant place.

Elegant, easy and fun to handle, the new system can be used in residential and commercial interiors such as hotels to define and separate a space - such as the bed in an open plan loft.

SKYROOM MOSKITO

SKYROOM MOSKITO

OPENS WITH A MAGIC ROTATION

The SKYROOM unfolds with a magical, origami-like rotation to create a 3dimensional temporary space.

The playful ease that lies behind this lightweight room-in-room system is not only functional but is also a real eye-catcher.

L 250 x W 250 x H 2 cm

Weight: approx. 12 kg

Mounting: 4 point suspension from the ceiling

Minimum ceiling height needed: 240 cm

white

anthracite

stainless steel

(suitable for outdoor use)

SUSTAINABILITY & DESIGN PHILOSOPHY

Sustainable furniture production

We are always working on minimizing our business operations' impact on the environment. MOVISI products adhere to strict ecological and socially responsible production methods. MOVISI furniture is 100% recyclable, entirely toxin-free and 100% made in Germany.

Green power: our offices and our warehouse are powered by 100% green electricity from Greenpeace. 100% free of CO2 emissions. Power/electricity is mostly generated from eco-friendly hydropower.

Minimal packaging: MOVISI furniture is very light in weight: this means that CO2 emissions are reduced during transport as less fuel is needed to move the goods. We avoid unnecessary packaging. Our goal is to keep waste towards zero. This is why we only use cardboard boxes for packaging our modular furniture. No additional packaging and padding material is being used.

Lightweight transport: our furniture is very light in weight: this means that CO2 emissions are reduced during transport as less fuel is needed to move the goods.

Light, flexible and customisable

We think that everyone should have more choices when it comes to the character of their home decor or office environment. Our aim is to offer you endless interior design possibilities. MOVISI does not dictate a style, but rather allows you to establish your own personal style with furniture that you can customise and change as it suits you. The results can be unexpected, individual and dynamic. You are in control. The furniture changes with a whim, and with minimum effort. The results can be as surprising and evocative as your own imagination - furniture that adapts to your needs. The interchangeable components make the furniture dynamic and responsive to changing needs. These characteristics combine to make MOVISI one of the world's most unique range of furnishings available anywhere today.
